Artist Duo OrtaMiklos Bring
Surreal Roman Decadence to
Design Miami

Berlin's Functional Art Gallery is bringing Roman decadence to [Design Miami](#) this week via an installation by Franco-Danish artistic duo OrtaMiklos.

The exhibit is titled *Decadence* and it draws inspiration from Thomas Couture's painting *The Romans in Their Decadence*, which dates back to 1847. OrtaMiklos' interpretation is a series of mutant, surrealist furniture sculptures that play extravagantly with shape and color.

Describing their work, OrtaMiklos speak of "ignorant design," a process that involves exploring boundaries and applying ideas to unknown aesthetic realms. In this case, that relates to material values and traditional form and function.

You can find OrtaMiklos' *Decadence* in Hall 1.1, booth G18, at Design Miami until June 16. Head over to the [Design Miami](#) website for more information.
