## 10 young designers to watch from Collectible 2019

### **OrtaMiklos**

Leo Orta and Victor Miklos are another duo who started working together during their studies at Design Academy Eindhoven. Originally from France and Denmark respectively, the designers now run their studio across two locations in Eindhoven, The Netherlands, and Les Moulins, France. They describe their approach as “ignorant design”, trying to create playful objects that do not necessarily have an explicit purpose and do not respond to trends in material or colour.

[OrtaMiklos](#) took over the Functional Art Gallery booth at Collectible to create The Study Room, a total environment featuring The White Ladies, a pair of lamp/seat hybrids made from concrete cast in women’s tights and electrical cables, and benches and bookshelves from their Iceberg series, made from carved foam and resin.
